

Signing into your account using MS Authenticator Push Notifications

Once you have setup multi-factor authentication please follow the instructions to sign-in to your Single Sign-On (SSO) account using MS Authenticator Push Notification. This guide assumes that the default authentication method is set to Microsoft Authenticator.

1. Select your account at the Single Sign-On (SSO) page

2. Enter your password and click **Sign in**
3. A push notification will now be sent to your device

4. On your device you will receive a notification. You may need to unlock your phone. Only **Approve** the notification if you have requested the login.

Click **Approve**

5. You will now be logged into your account.
