

Signing into your account using text message verification

Once you have setup multi-factor authentication please follow the instructions to sign-in to your Single Sign-On (SSO), using text message as a verification method. This guide assumes that the default authentication method is set to text message.

1. Select your account at the Single Sign-On (SSO) page

2. Enter your password and click **Sign in**
3. Enter the verification code received in the text message and click **Verify**

4. You will now be logged into your account.
